

Infosafe No™ VARDW                      Issue Date : November 2016                      ISSUED by HUNTERST

Product Name **CREME CLEANSER**

## 1. Identification

**GHS Product Identifier**                      CREME CLEANSER

**Company Name**                              Hunters Products (TAS) Pty. Ltd. (ABN 004 601 263)

**Address**                                        60 Gleadow Street INVERMAY  
TAS 7248 Australia

**Telephone/Fax Number**                      Tel: 03 6331 4755  
Fax: 03 6334 1065

**Emergency phone number**                      0407 610 542

**Recommended use of the chemical and restrictions on use**                      Scourer cleanser for all hard surfaces. Pour on to wet cloth or sponge and wipe off any residue with a damp cloth.

## 2. Hazard Identification

**GHS classification of the substance/mixture**                      Not classified as Hazardous  
Not classified as a Dangerous Good

**Signal Word (s)**                                NONE

**Hazard Statement (s)**                        None

**Precautionary statement – General**                      P102 Keep out of reach of children.  
P104 Read Safety Data Sheet before use.

**Pictogram (s)**                                 None

**Precautionary statement – Storage**                      P404 Store in a closed container.

**Precautionary statement – Disposal**                      P501 Dispose of contents/container in accordance with local regulations.

## 3. Composition/information on ingredients

Ingredients	Name	CAS	Proportion
	Water	7732-18-5	60-100 %
	Ingredients determined not to be hazardous		10-30 %
	Quartz (crystalline silica) *	14808-60-7	10-30 %
	Non hazardous surfactants	Mixture	1-10 %

## 4. First-aid measures

**Inhalation**                                      Remove from exposure.

**Ingestion**                                      Do NOT induce vomiting. Give a glass of milk or water to be taken slowly.

**Skin**    If unintended skin contact occurs, remove contaminated clothing and wash skin thoroughly. Wash clothing before re-use.

**Eye contact**                                      If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

**First Aid Facilities**                              Eye wash station and normal washroom facilities.

**Advice to Doctor**                              Product is a blend containing surfactants, thickeners and polishing pigments. Vomiting has not been induced because of risk of aspiration into the lungs. Risk of mechanical damage to eyes. Treat symptomatically. Contact Poisons Information Centre.

## 5. Fire-fighting measures

Infosafe No™ VARDW	Issue Date : November 2016	ISSUED by HUNTERST
--------------------	----------------------------	--------------------

Product Name **CREME CLEANSER**

**Suitable extinguishing media** Use dry powder, carbon dioxide, or extinguishing media appropriate to surrounding fire.

**Hazards from Combustion Products** Decomposes on heating emitting oxides of carbon.

**Specific Methods** In case of small fire/explosion use water. In case of major emergency use PPE: breathing apparatus and protective gloves.

**Specific hazards arising from the chemical** This material is not a flammable or combustible liquid.

## 6. Accidental release measures

**Spills & Disposal** Before dealing with spillage take necessary protective measures, inform others to keep at a safe distance and shut off all possible sources of ignition. Spillages will be very slippery. Contain large spills with an inert material such as sand, soil or vermiculite. Collect and seal in properly labelled containers for disposal. Small spills may be mopped up. If local regulations permit, wash down area with excess water and run to waste, diluting greatly with running water. Otherwise absorb on inert absorbent, transfer to container and arrange removal by disposals company. Wash site of spillage thoroughly with water. Ventilate area to dispel any residual vapours.

## 7. Handling and storage

**Conditions for safe storage, including any incompatibilities** Store in cool place in original container, in a well ventilated area. Store away from oxidising agents and foodstuffs. Keep containers closed when not in use. Store out of reach of children. Clean up all spills promptly; avoid secondary accidents.

## 8. Exposure controls/personal protection

Occupational exposure limit values	Name	STEL		TWA		Footnote
		mg/m3	ppm	mg/m3	ppm	
	Quartz (crystalline silica) *			0.2		
<b>Other Exposure Information</b>	TLV-TWA: None assigned by Worksafe Australia, but see: TLV_STEL: None assigned by Worksafe Australia					
<b>Appropriate engineering controls</b>	Maintain adequate ventilation at all times. In most circumstances natural ventilation systems are adequate unless the material is heated, reacted or otherwise changed in some type of chemical reaction, then the use of a local exhaust ventilation system is recommended.					
<b>Personal Protective Equipment</b>	Avoid contact with the skin and eyes. Personal protection to be selected from those recommended below, as appropriate to mode of use, quantity handled and degree of hazard:- Eye/face protection Gloves, rubber or plastic. Always maintain a high level of personal hygiene when using cleaning chemicals. That is wash hands before eating, drinking, smoking or using the toilet.					

## 9. Physical and chemical properties

**Form** Liquid

**Appearance** Pink cream paste

**Odour** Pine odour

**Solubility in Water** Miscible with water in all proportions.

**Specific Gravity** 1.3

Infosafe No™ VARDW                      Issue Date : November 2016                      ISSUED by HUNTERST

Product Name **CREME CLEANSER**

**pH**    9 - 10  
**Flash Point**                                None  
**Flammability**                                Not flammable.

## 10. Stability and reactivity

**Chemical Stability**                      Stable under normal use conditons.  
**Conditions to Avoid**                      Heat, flames, ignition sources and incompatibles  
**Incompatible Materials**                      Strong alkalis, acids, oxidizing agents.  
**Hazardous Decomposition Products**                      Emits smoke and fumes when heated to decomposition.

## 11. Toxicological Information

**Ingestion**                                      May cause irritation to mouth, throat and stomach with effects including mucous build up, irritation to the tongue and lips and pains in the stomach, which may lead to nausea, vomiting and diarrhoea.  
**Inhalation**                                      May cause irritation to the nose, throat and respiratory system with effects including: Dizziness, headache and loss of co-ordination.  
**Skin**    Prolonged skin contact with the concentrate, without rinsing off, will degrease the skin and may lead to irritation.  
**Eye**     Irritant. Risk of mechanical irritation, or abrasion, of corneal surface.  
**Chronic Effects**                                Prolonged or repeated skin contact may lead to dermatitis.  
Additional information for Chronic:  
Exposure to respirable crystalline quartz may cause delayed (chronic) lung disease known as silicosis; Acute or rapidly developing silicosis may occur in a period of time in heavy exposure in certain occupations such as sandblasting, however, this can be minimized if  
(a). Proper ventilation is employed and  
(b) in the absence of ventilation a suitable respirator is used.  
An (IARC) Working Group reported that there is sufficient evidence for the classification of crystalline silica as a Confirmed Human Carcinogen (Group I) (IARC, 1997,V.68).  
No significant long term exposure effects, including carcinogenic, mutagenic, teratogenic and reproductive effects, have been reported.  
However, repeated ingestion of some phosphates (120-240mg/kg/day) has been shown to cause increased calcium excretion and soft tissue calcification in man.

## 12. Ecological information

**Ecotoxicity**                                      Not Severe.  
**Persistence and degradability**                      Inherently Biodegradable.  
**Mobility**    Cream liquid which is carried by water rather than being diluted by it.  
**Information on Ecological Effects**                      This substance may cause long term adverse effects in the environment.  
**Environmental Protection**                      Avoid contaminating waterways, drains, sewers, or ground.

## 13. Disposal considerations

**Waste Disposal**                                Refer to appropriate authority in your State. Dispose of material through a licensed waste contractor. Normally suitable for disposal by approved waste disposal agent.

## 14. Transport information

Infosafe No™ VARDW      Issue Date : November 2016      ISSUED by HUNTERST

Product Name **CREME CLEANSER**

**Transport Information**      Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

## 15. Regulatory information

**Poisons Schedule**      Not Scheduled

**AICS (Australia)**      All components listed.

## 16. Other Information

**Date of preparation or last revision of SDS**      3/11/2016

**Literature References**      Preparation of Safety Data Sheets for hazardous Chemicals Code of Practice Standard for the Uniform Scheduling of Medicines and Poisons  
Australian Code for the Transport of Dangerous Goods by Road & Rail  
Globally Harmonised System of classification and labelling of chemicals

**Signature of Preparer/Data Service**      Technical Manager 0407 610 542

**Technical Contact Numbers**      Emergency Advice All Hours:  
Technical Manager: 0407 610 542 Mon-Fri 8am - 6pm  
Poisons Information Centre: 13 11 26 - 24hrs  
Transport/Fire Emergency: 000 (Emergency services)

**Other Information**      This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the Workplace. Please refer to the technical datasheet (Instructions for use), and the label on the drum. The company cannot anticipate or control the individual working conditions encountered and so each user should read this SDS carefully, and if in doubt ring the Contact Point Number given below.
