RAPIDAIR | CARPET AND FLOOR DRYER

RAPIDAIR | PRODUCT FEATURES

The RapidAir blower was designed to create and channel airflow while maximizing the CFM. The 1 hp motor generates optimum performance and cuts drying time in half and features three different speeds to meet any need. It can operate in multiple positions and angles in order to circulate airflow including 0 degrees or at a pitch of 45 or 90 degree angles. The RapidAir blower features a stackable and lightweight design for easy transport and a convenient built-in cable wrap for the 3-prong, 14-gauge grounded power cord. It also contains protective screens at every opening and a non-conductive and non-marking rotationally molded housing. The RapidAir can improve facility ventilation and quicken the drying time for carpets or upholstery after extraction, flooded areas or fresh paint. It can be utilized in a variety of markets including institutional, industrial, commercial or hospitality. The RapidAir can also be used as a marketing tool by inflating advertising balloons in order to get your business noticed!
