

Infosafe No™ VARDW	Issue Date : May 2021	ISSUED by HUNTERST
Product Name CREME CLEANSER		

1. Identification

GHS Product Identifier	CREME CLEANSER
Company Name	Hunters Products (TAS) Pty. Ltd. (ABN 004 601 263)
Address	60 Gleadow Street INVERMAY TAS 7248 AUSTRALIA
Telephone/Fax Number	Tel: 03 6331 4755 Fax: 03 6334 1065
Emergency phone number	0407 610 542
Recommended use of the chemical and restrictions on use	Scourer cleanser for all hard surfaces. Pour on to wet cloth or sponge and wipe off any residue with a damp cloth.

2. Hazard Identification

GHS classification of the substance/mixture	Not classified as Hazardous Not classified as a Dangerous Good
Signal Word (s)	NONE
Hazard Statement (s)	None
Precautionary statement – General	P102 Keep out of reach of children. P104 Read Safety Data Sheet before use.
Pictogram (s)	None
Precautionary statement – Storage	P404 Store in a closed container.
Precautionary statement – Disposal	P501 Dispose of contents/container in accordance with local regulations.

3. Composition/information on ingredients

Ingredients	Name	CAS	Proportion
	Water	7732-18-5	60-100 %
	Ingredients determined not to be hazardous		10-30 %
	Quartz (crystalline silica) *	14808-60-7	10-30 %
	Non hazardous surfactants	Mixture	1-10 %

4. First-aid measures

Inhalation	Remove from exposure.
Ingestion	Do NOT induce vomiting. Give a glass of milk or water to be taken slowly.
Skin	If unintended skin contact occurs, remove contaminated clothing and wash skin thoroughly. Wash clothing before re-use.
Eye contact	If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.
First Aid Facilities	Eye wash station and normal washroom facilities.
Advice to Doctor	Product is a blend containing surfactants, thickeners and polishing pigments. Vomiting has not been induced because of risk of aspiration into the lungs. Risk of mechanical damage to eyes. Treat symptomatically. Contact Poisons Information Centre.

5. Fire-fighting measures

Suitable extinguishing media	Use dry powder, carbon dioxide, or extinguishing media appropriate to surrounding fire.
-------------------------------------	---

Infosafe No™ VARDW Issue Date : May 2021 ISSUED by HUNTERST

Product Name **CREME CLEANSER**

Hazards from Combustion Products Decomposes on heating emitting oxides of carbon.

Specific Methods In case of small fire/explosion use water. In case of major emergency use PPE: breathing apparatus and protective gloves.

Specific hazards arising from the chemical This material is not a flammable or combustible liquid.

6. Accidental release measures

Spills & Disposal Before dealing with spillage take necessary protective measures, inform others to keep at a safe distance and shut off all possible sources of ignition. Spillages will be very slippery. Contain large spills with an inert material such as sand, soil or vermiculite. Collect and seal in properly labelled containers for disposal. Small spills may be mopped up. If local regulations permit, wash down area with excess water and run to waste, diluting greatly with running water. Otherwise absorb on inert absorbent, transfer to container and arrange removal by disposals company. Wash site of spillage thoroughly with water. Ventilate area to dispel any residual vapours.

7. Handling and storage

Conditions for safe storage, including any incompatibilities Store in cool place in original container, in a well ventilated area. Store away from oxidising agents and foodstuffs. Keep containers closed when not in use. Store out of reach of children. Clean up all spills promptly; avoid secondary accidents.

8. Exposure controls/personal protection

Occupational exposure limit values	Name	STEL		TWA		Footnote
		mg/m3	ppm	mg/m3	ppm	
	Quartz (crystalline silica) *			0.2		
Other Exposure Information	TLV-TWA: None assigned by Worksafe Australia, but see: TLV_STEL: None assigned by Worksafe Australia					
Appropriate engineering controls	Maintain adequate ventilation at all times. In most circumstances natural ventilation systems are adequate unless the material is heated, reacted or otherwise changed in some type of chemical reaction, then the use of a local exhaust ventilation system is recommended.					
Personal Protective Equipment	Avoid contact with the skin and eyes. Personal protection to be selected from those recommended below, as appropriate to mode of use, quantity handled and degree of hazard:- Eye/face protection Gloves, rubber or plastic. Always maintain a high level of personal hygiene when using cleaning chemicals. That is wash hands before eating, drinking, smoking or using the toilet.					

9. Physical and chemical properties

Form Liquid

Appearance Pink cream paste

Odour Pine odour

Solubility in Water Miscible with water in all proportions.

Specific Gravity 1.3

pH 9 - 10

Flash Point None

Flammability Not flammable.

Infosafe No™ VARDW Issue Date : May 2021 ISSUED by HUNTERST

Product Name **CREME CLEANSER**

10. Stability and reactivity

Chemical Stability	Stable under normal use conditons.
Conditions to Avoid	Heat, flames, ignition sources and incompatibles
Incompatible Materials	Strong alkalis, acids, oxidizing agents.
Hazardous Decomposition Products	Emits smoke and fumes when heated to decomposition.

11. Toxicological Information

Ingestion	May cause irritation to mouth, throat and stomach with effects including mucous build up, irritation to the tongue and lips and pains in the stomach, which may lead to nausea, vomiting and diarrhoea.
Inhalation	May cause irritation to the nose, throat and respiratory system with effects including: Dizziness, headache and loss of co-ordination.
Skin	Prolonged skin contact with the concentrate, without rinsing off, will degrease the skin and may lead to irritation.
Eye	Irritant. Risk of mechanical irritation, or abrasion, of corneal surface.
Chronic Effects	Prolonged or repeated skin contact may lead to dermatitis. Additional information for Chronic: Exposure to respirable crystalline quartz may cause delayed (chronic) lung disease known as silicosis; Acute or rapidly developing silicosis may occur in a period of time in heavy exposure in certain occupations such as sandblasting, however, this can be minimized if (a). Proper ventilation is employed and (b) in the absence of ventilation a suitable respirator is used. An (IARC) Working Group reported that there is sufficient evidence for the classification of crystalline silica as a Confirmed Human Carcinogen (Group I) (IARC, 1997,V.68). No significant long term exposure effects, including carcinogenic, mutagenic, teratogenic and reproductive effects, have been reported. However, repeated ingestion of some phosphates (120-240mg/kg/day) has been shown to cause increased calcium excretion and soft tissue calcification in man.

12. Ecological information

Ecotoxicity	Not Severe.
Persistence and degradability	Inherently Biodegradable.
Mobility	Cream liquid which is carried by water rather than being diluted by it.
Information on Ecological Effects	This substance may cause long term adverse effects in the environment.
Environmental Protection	Avoid contaminating waterways, drains, sewers, or ground.

13. Disposal considerations

Waste Disposal	Refer to appropriate authority in your State. Dispose of material through a licensed waste contractor. Normally suitable for disposal by approved waste disposal agent.
-----------------------	---

14. Transport information

Transport Information	Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.
------------------------------	--

15. Regulatory information

Poisons Schedule	Not Scheduled
AICS (Australia)	All components listed.

Infosafe No™ VARDW	Issue Date : May 2021	ISSUED by HUNTERST
--------------------	-----------------------	--------------------

Product Name **CREME CLEANSER**

16. Other Information

**Date of preparation
or last revision of
SDS** 20/05/2021

**Literature
References** Preparation of Safety Data Sheets for hazardous Chemicals Code of Practice
Standard for the Uniform Scheduling of Medicines and Poisons
Australian Code for the Transport of Dangerous Goods by Road & Rail
Globally Harmonised System of classification and labelling of chemicals

**Signature of
Preparer/Data
Service** Technical Manager 0407 610 542

**Technical Contact
Numbers** Emergency Advice All Hours:
Technical Manager: 0407 610 542 Mon-Fri 8am - 6pm
Poisons Information Centre: 13 11 26 - 24hrs
Transport/Fire Emergency: 000 (Emergency services)

Other Information This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the Workplace. Please refer to the technical datasheet (Instructions for use), and the label on the drum. The company cannot anticipate or control the individual working conditions encountered and so each user should read this SDS carefully, and if in doubt ring the Contact Point Number given below.
